Feeding Guide:

Most dogs need a slow and steady transition from one food to another. Simply start with a small amount of raw to your current food and every day increase the amount of raw while decreasing the old food. This process usually takes a minimum of one week. The chart below is a general feeding guideline.

Dog's Weight	10 lbs.	25 lbs.	50 lbs.	75 lbs.	100 lbs.
# of patties per day*	1/4 - 1/2	1 - 1 1/2	2 - 3	3 - 4	4 - 6

*Patties are approximately 8 ounces. These percentages are guidelines and recommendations. Always consult with your veterinarian for specific calorie requirements.
