## The Blackwood Difference

We handcraft Blackwood Pet Food in small batches at our family-owned facility in Ohio because healthy, happy pets make their families happy. That's why we're so dedicated to the care and quality that goes into every batch of our dog and cat recipes.

We believe in tradition and taking time to do things right.

At the heart of Blackwood's success is our time-honored commitment of slow cooking. perfected over the course of more than twenty years of creating premium pet food recipes that are appetizing as well as easy for your pet to digest.

Slow cooked foods can increase pet nutrient uptake, too — which may improve energy, stamina and immune response. The levels of Omega 3 and 6 fatty acids in Blackwood foods help promote superior skin and coat quality, too.
